'Are You Dressed
For Success'
Event at MassBio

► Innovation CORNER

Are You Dressed For Success?

Kimtech* is asking biopharmaceutical manufacturing production managers to take a closer look at their existing reusable apparel. Is it protecting their process and their people? Or is it a potential cause of contamination?

Since people are the largest source of contamination, if their garments are compromised a manufacturer's process could be too. Selecting the right garment can dramatically reduce this risk. Kimtech Brand* single-use apparel can control this threat by simplifying the contamination control process. How? **Let us show you what it means to be Dressed for Success.**

For more information, visit
www.kimtech.com/rightcycle

The RightCycle Program is an innovative recycling program that diverts waste from landfills and helps you achieve, or even exceed, your organization's sustainability goals. The RightCycle Program will turn your used garments and gloves into raw materials to create durable consumer goods.

APEX

► MAKE YOUR CLEANROOM EXCEPTIONAL

APEX is a unique employee training program that helps facilitate the changeover to the Kimtech* Brand of products. By effectively engaging employees, it ensures protection of the scientific process and enhances efficiency and performance.
